Board of Directors,
New Haven, Conn.

Dear Brother Knight:

JUN 10 1925

Our day of rejoicing has come. Rejoicing because the right has triumphed and the sacredness of the Constitution has been once more established.

While I have never doubted that the Supreme Court would meet the emergency with the same adherence to correct principles which has at all times characterized its decisions, yet there is consolation and satisfaction in having the matter settled for the entire nation.

I want to thank you most sincerely for the splendid assistance you gave us in carrying these cases through the Courts. I am convinced more than ever that it was a masterstroke to keep the Hill case alongside that of the sisters; because the Hill Academy is a non-sectarian institution and as such was a wonderful moral force in showing that the fight was not solely a Catholic one.

The fact that you boys of other states recognized that fact and that you realized that it was a fight in which the Catholics of every other state were equally interested with those of Oregon, was of great value, as without your assistance we could not have financed the contest.

I certainly appreciate your cooperation and whenever the boys of Oregon can reciprocate you will find us ready and willing.

GOD BLESS YOU ALL!

Very sincerely and fraternally,

P. J. Hanley
STATE DEPUTY
